IMPORTANT COMMUNICATION TO MEMBERS

The Ministry of Corporate Affairs has taken a "Green Initiative in the Corporate Governance" by allowing paperless compliances by the companies and has issued circulars stating that service of notice/documents including Annual Report can be sent by e-mail to its members. To support this green initiative of the Government in full measure, members who have not registered their e-mail addresses, so far, are requested to register their e-mail addresses, in respects of electronic holding with the Depository through their concerned Depository Participants.

Managing Director's Message

Dear Valued Stakeholders,

It is with great pleasure and pride that I present to you ResGen Limited's Annual Report for the fiscal year 2024. This year has been marked by significant achievements and strong growth, further solidifying our position as a pioneer in the sustainable energy sector.

Our Business and Products

ResGen Limited has been at the forefront of transforming environmental sustainability into a commercially viable and scalable business model. Our core business revolves around the production of Pyrolysis Oil, branded as PlasEco, derived from various types of waste plastics. This innovative product serves as a sustainable alternative to traditional furnace oil or diesel, boasting a high calorific value and lower sulfur and nitrogen content. Beyond PlasEco, our pyrolysis process yields valuable by-products such as Carbon and Gas, which find applications in various industries, further maximizing our resource efficiency and environmental impact.

Remarkable Growth and Performance

FY2024 has been a year of exceptional performance for ResGen. Our total income surged to Rs. 4,557.44 lakhs, nearly doubling from the previous year. This remarkable growth is a testament to the increasing demand for our innovative products and the efficiency of our operations. Our EBITDA reached Rs. 1,532.61 lakhs, and we achieved a net profit of Rs. 656.88 lakhs, representing substantial year-over-year increases of 48.7% and 57.6% respectively.

Market Outlook: Plastic-to-Fuel Industry and Related Sectors

Pyrolysis Oil Industry

- Market Size: Estimated at grow from USD 0.52 billion in 2024 to USD 1.28 billion by 2029
- Growth Rate: Impressive CAGR of 19.71% during the forecast period

India's Waste Management Market

- Market Size: Projected to grow from USD 12.90 billion in 2024 to USD 17.30 billion by 2029
- Growth Rate: CAGR of 6.10% during the forecast period
- Waste Generation: Expected to reach 162 million tons annually by 2030, up from the current 62 million tons

Market Drivers and Opportunities

The plastic-to-fuel industry is propelled by increasing focus on sustainable waste management, rising demand for alternative fuels, and supportive government policies. Technological advancements in pyrolysis processes and the growing adoption of recycled materials further drive market growth. These factors create significant opportunities for ResGen Limited to expand operations and contribute to the sustainable energy sector.

Looking Ahead

I am excited about the opportunities that lie ahead. We are projecting to produce 20 million liters of PlasEco in 2024, which will mark a significant milestone in our journey. Our focus remains on geographical expansion, product diversification, and strategic partnerships to drive future growth.

We are also intensifying our research efforts to produce virgin polymers and petrochemicals from Pyrolysis Oil, aiming to establish a fully circular plastics recycling ecosystem. These initiatives not only promise new revenue streams but also reinforce our commitment to environmental sustainability.

Gratitude and Commitment

As we conclude this transformative fiscal year, I am filled with immense pride in our achievements and great excitement for

the future. Our success is the result of the hard work and dedication of our employees, the trust of our customers, the support of our partners who enable our excellence, and the initiatives of government bodies that foster our industry's development. I also want to acknowledge the confidence of our shareholders. I extend my heartfelt gratitude to all of you each of you is integral to the Resgen story, and your contributions are deeply appreciated.

Looking ahead, we remain steadfast in our commitment to our vision of transforming environmental sustainability into a commercially viable and scalable business model. We are confident that our innovative approach, paired with our strong execution capabilities, will continue to create value for all our stakeholders while contributing to a cleaner, more sustainable world.

As we embark on the next chapter of our journey, I want to thank you all for your unwavering support and trust in Resgen. Your faith in our vision has been instrumental to our success, and we look forward to continuing this journey of growth and innovation together. Here's to another year of creativity, progress, and shared success!

There is no change in the Company’s nature of business. The Company continues to be engaged in manufacturing and selling of pyrolysis oil and carbon (substitute for coal) from plastic waste and there is no change in the nature of the business of the Company during the Financial year under review.

Our company is engaged in the process of manufacturing Pyrolysis Oil (a substitute for furnace oil) from all kinds of waste plastics. We call this: PlasEco. During the manufacturing of PlasEco, we’re able to repurpose the by-products generated, such as Carbon, which substitutes for coal; and Gas, which substitutes for LPG.

We at ResGen, has come up with an ingenious method, which is not only eco-friendly but also gives by-products which are very essential to one and all. The major by-product being combustible liquid and gaseous fuel, it can replace the diesel or furnace oils, which will directly reduce the need and impact of our combustible fuel resources. We use a patented catalytic process to improve the efficiency, safety and scalability of the pyrolysis process.

Annual Report on Corporate Social Responsibility (CSR) Activities

1. A brief outline of the Company's CSR policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs.

A brief outline of the Company's Policy – Our Company's CSR Committee's philosophy on CSR is simple as nothing but to give back to our society as our responsibility from where we have earned & learned. Our aim is to be one of the most respected Companies in India delivering superior and sustainable value to all our customers, business partners, shareholders, employees and host communities.

During the year Company has initiated the CSR. The CSR Committee has identified a Charitable Trust in the name of "Pumpkin House for Children Trust" to undertake the various activities such as education for under privileged, Scheduled cast and Nomadic Tribes Children as prescribed in Schedule VII of the Companies Act, 2013.

The Company promotes Education for underprivileged, poor children, Children from Scheduled cast and Nomadic Tribes, children from disadvantaged group and weaker section of the Society, health and life, Environment, culture and some proposed projects which are as follows:

- Improving the quality of life in needed children;
- To establish a new Educational Establishment for the children who are still deprived for the education;
- Eradicating hunger, poverty and malnutrition;
- Promoting healthcare including preventive healthcare;
- Any other activity as prescribed in Schedule VII of the Companies Act, 2013

The activities and funding are monitored internally by the Company.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

The purpose of this discussion is to provide an understanding of business of the Company, Financial statements and a composite summary of performance of our business. Management Discussion and Analysis Report (MDAR) is structured as follows:

Global Economy Overview

Current Economic Landscape

The International Monetary Fund's (IMF) July 2024 World Economic Outlook projects global growth rates of 3.2% for 2024 and 3.3% for 2025, aligning closely with previous forecasts. The early months of the year witnessed varied economic performance across regions, contributing to a narrowing of output disparities as transient economic factors waned. However, the path to economic stability is complicated by stubborn inflation, particularly in the services sector, which hampers efforts to normalize monetary policies.

Regional Economic Dynamics

The global economy experienced a revival in trade as 2024 began, propelled by strong exports from Asia, notably in the technology sector. Nevertheless, significant regional disparities persist. The United States encountered a more pronounced slowdown than anticipated, attributed to declining consumption and a negative trade balance. Japan grappled with temporary disruptions in its supply chains. In contrast, Europe showed promising signs of economic recovery, driven by improvements in the services sector, while China benefited from a surge in domestic consumption. Despite these positive trends, the overall pace of disinflation has been gradual, primarily due to persistent inflation in service prices, even as goods prices demonstrate more robust disinflation patterns. This uneven inflation landscape has led to delays in normalizing monetary policy in some advanced economies, particularly the United States, compared to others where inflation trends are more favourable.

Future Economic Prospects

Looking ahead, the global economic outlook presents a nuanced picture, with steady growth prospects counterbalanced by substantial downside risks. Advanced economies are expected to experience modest growth convergence, with the United States and Europe gradually narrowing their output gaps. Emerging markets, especially in Asia, are projected to achieve stronger growth, driven by robust domestic demand and exports. However, growth prospects for other regions, such as Latin America and sub-Saharan Africa, remain less optimistic due to structural challenges and external shocks, including natural disasters and geopolitical tensions. The diverse economic trajectories across regions underscore the need for tailored policy approaches to address specific challenges and capitalize on growth opportunities.

Policy Imperatives and Reform Agenda

To navigate the complex economic landscape, policymakers must focus on striking a delicate balance between fostering economic recovery and maintaining price stability. This necessitates a cautious approach to normalizing monetary policy, particularly in economies grappling with higher inflation risks. Moreover, implementing structural reforms is crucial to enhance productivity, facilitate labor market integration, and strengthen fiscal buffers. For emerging markets, effective management of currency and capital flow volatility is essential, coupled with judicious use of foreign reserves and targeted macro prudential policies. As the global economy continues to evolve, the ability of nations to adapt their policy frameworks and implement necessary reforms will play a pivotal role in shaping the trajectory of economic growth and stability in the coming years.

India's Economic Landscape

Growth and Economic Resilience

India's economy has demonstrated remarkable resilience in the face of global uncertainties. The fiscal year 2023-24 (FY24) saw real GDP growth soar to 8.2%, with three out of four quarters exceeding the 8% mark. This impressive performance was underpinned by stable consumption demand and a steady increase in investment. Looking ahead, the economy is projected to maintain its momentum, with growth forecasts ranging between 6.5-7% for the fiscal year 2024-25.

Sectoral Contributions and Industrial Performance

The diverse nature of India’s economy is reflected in its Gross Value Added (GVA) composition for FY24, with agriculture contributing 17.7%, industry 27.6%, and services dominating at 54.7%. The industrial sector, particularly manufacturing and construction, showed substantial growth, both expanding by 9.9%. This growth was fueled by reduced input prices and robust domestic demand. The services sector also experienced significant growth, driven by increased activities in financial and professional services, as well as retail and wholesale trade.

Key Economic Indicators and Fiscal Management

Several key economic indicators underscore the strength and dynamism of the Indian economy. Retail inflation moderated to 5.4% in FY24, down from an average of 6.7% in FY23, due to a combination of government measures and monetary policy adjustments by the Reserve Bank of India (RBI). The fiscal deficit of the Union Government also improved, decreasing from 6.4% of GDP in FY23 to 5.6% in FY24, indicating progress in fiscal consolidation efforts. Investment activity, as measured by Gross Fixed Capital Formation (GFCF), has shown robust growth, with private non-financial corporations increasing their investments by 19.8% in FY23.

Banking Sector Stability and External Position

The banking sector in India remains strong, with the Gross Non-Performing Assets (GNPA) ratio declining to 2.8% in March 2024, the lowest in 12 years, reflecting improved asset quality. The sector is well-positioned to support growing investment demands, with steady credit growth in both industrial and personal loans. On the external front, India’s foreign exchange reserves were sufficient to cover 11 months of projected imports by the end of March 2024, demonstrating a stable external position despite global economic headwinds.

Social Welfare and Structural Reforms

The Indian government has continued to emphasize social welfare and structural reforms, focusing on improving the quality of life for its citizens through targeted initiatives. The Direct Benefit Transfer (DBT) system and other welfare programs have significantly enhanced fiscal efficiency and reduced leakages, with over ¹ 36.9 lakh crore transferred via DBT since 2013. Furthermore, female labor force participation has increased significantly, from 23.3% in 2017-18 to 37% in 2022-23, largely due to the rising participation of rural women.

Economic Outlook and Challenges

Looking ahead, India is poised for continued economic growth, supported by robust domestic drivers and a strategic focus on infrastructure development and investment. However, challenges remain, including potential geopolitical conflicts that could disrupt supply chains, increase commodity prices, and revive inflationary pressures. The global trade outlook for 2024 is cautiously optimistic, with merchandise trade expected to recover after a contraction in 2023.

Plastic To Fuel Industry: Overview & Outlook

Market Growth and Drivers

The Plastic to Fuel industry is experiencing significant growth, driven by the increasing demand for energy generation from waste materials. In 2023, the global market size was estimated at USD 531.0 million, with projections indicating a compound annual growth rate (CAGR) of 23.6% from 2024 to 2030. This growth is primarily fueled by the rising volumes of household and industrial waste, coupled with governmental initiatives to promote energy generation from plastic waste. The market’s expansion is particularly notable in regions with high plastic consumption and advanced waste management infrastructure, such as North America, Europe, and parts of Asia.

Technological Landscape

Pyrolysis dominates the technological landscape, holding over 80% of the market share in 2023. This method is becoming increasingly commercialized, with several operational plants and more in the pipeline. Other technologies like depolymerisation and gasification are also gaining traction. Polyethylene is the most common plastic type used in this process, accounting for about 32% of the market share, followed by PET at 21.5%. The industry sources its raw materials primarily from commercial and industrial waste, which represented over 61% of the market in 2023, with municipal solid waste also playing a growing role.

End Products and Applications

Crude oil emerges as the largest end-product segment, accounting for 60.31% of the market in 2023. It finds applications in various sectors, including automotive fuels, industrial boilers, and power generation. Other end products include sulfur, hydrogen, and specialized chemicals. The versatility of these products contributes to the industry’s appeal across different sectors.

Market Dynamics

The growth of the plastic-to-fuel industry is driven by factors such as increasing plastic waste generation globally, rising oil prices making alternative fuels more attractive, and technological advancements improving conversion efficiency. However, the industry also faces restraints, including high initial capital costs for plant setup, fluctuating oil prices affecting profitability, and competition from mechanical recycling and biodegradable plastics.

Future Outlook

The increasing adoption of recycled materials across various industries is expected to drive demand for plastic waste recycling. Additionally, the rising need for sustainable waste management solutions and energy generation alternatives positions the industry favourably.

Key areas for future development include improving process efficiency to handle a wider range of plastic types, developing more environmentally friendly conversion methods, expanding into new geographical markets, and integrating with existing waste management and energy production systems.

As the world grapples with plastic waste management, the plastic-to-fuel industry stands poised to play a crucial role in both waste reduction and alternative energy production.

Plastic Waste Pyrolysis Oil Market Overview

Market Overview and Growth Projections

The global Plastic Waste Pyrolysis Oil Market has shown significant growth, reaching a value of USD 641.1 million in 2023. The market is expected to continue its upward trajectory, with a projected compound annual growth rate (CAGR) of 5.3% from 2024 to 2032. This growth is primarily driven by the increasing demand for alternative and sustainable energy sources, as well as supportive government policies and incentives worldwide aimed at promoting renewable energy use.

Driving Factors and Industry Trends

The market's expansion is fueled by growing global concerns about plastic pollution and limited landfill capacity. Governments and industries are increasingly adopting circular economy practices that prioritize recycling and reusing plastic waste. The global goal of achieving zero-waste generation is a key driver, encouraging the diversion of waste from landfills and the increased deployment of pyrolysis plants worldwide. Sustainable improvements in business operations and effective customer service have also contributed to the market's development.

Segment Analysis: LDPE and Fuel

The Low-Density Polyethylene (LDPE) segment is poised for significant growth, with a projected increase of 4.5% from 2023 to 2032. This growth is attributed to LDPE's crucial role in developing eco-friendly packaging materials, aligning with the global shift towards sustainable packaging solutions. Meanwhile, the fuel segment dominated the market in 2022, accounting for 60% of the market share. The potential of plastic waste-derived fuel to serve as an alternative to conventional fossil fuels is driving this segment's growth, contributing to efforts to reduce greenhouse gas emissions and dependence on finite resources.

Technological Advancements: Flash Pyrolysis

Flash pyrolysis is gaining significant attention in the energy and chemical industries due to its potential in generating bio-based fuels, chemicals, and other value-added products. This process, which involves rapidly heating biomass or organic materials to high temperatures in the absence of oxygen, is expected to play a crucial role in the transition towards a low-carbon economy and in meeting the increasing demand for sustainable alternatives.

Regional Outlook: Asia Pacific

The Asia Pacific region is emerging as a key player in the plastic waste pyrolysis oil market. Rapid population growth, urbanization, and changing consumption patterns in this region have led to a surge in plastic waste generation, creating an urgent demand for efficient waste management solutions. The adoption of pyrolysis technology in this region is expected to contribute significantly to waste reduction, resource recovery, and energy generation, positioning Asia Pacific as a major growth driver for the global market.

Pyrolysis Oil Industry Overview

Market Growth and Size

The pyrolysis oil industry is experiencing significant growth, driven by increasing demand for eco-friendly fuel alternatives and applications in heat and power generation. As of 2024, the market size is estimated at USD 0.52 billion, with projections reaching USD 1.28 billion by 2029. This represents a robust compound annual growth rate (CAGR) of 19.71% during the forecast period.

Impact of COVID-19 and Recovery

The COVID-19 pandemic initially hampered market growth in 2020 and 2021 due to widespread industrial shutdowns and restrictions. However, the industry has shown strong signs of recovery since mid-2021, with renewed interest from market players driven by the global push for sustainability and the reopening of key sectors such as oil and gas, chemicals, and power generation.

Applications and Potential

Pyrolysis oil, derived from the thermal decomposition of organic materials, offers promising applications across various industries. Its potential as a substitute for conventional fuels in boilers, furnaces, and power generation has garnered significant attention. The product also serves as a valuable feedstock for renewable transportation fuels and chemical production.

Geographical Distribution

The Asia-Pacific region is expected to exhibit the highest growth rate during the forecast period, indicating a shift in market dynamics and increasing adoption of pyrolysis oil technologies in developing economies.

Future Outlook

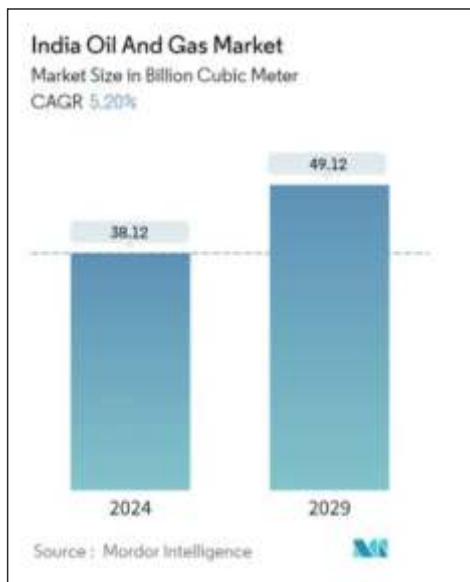

Looking ahead, the industry's outlook remains positive, supported by global trends towards sustainable and renewable energy sources. As industrial sectors continue to seek alternatives to traditional fossil fuels, pyrolysis oil is well-positioned to

play an increasingly important role in the transition to a more environmentally friendly energy landscape. Ongoing research and development efforts are likely to improve the product's efficiency and expand its range of applications, further driving market growth in the coming years.

Leveraging Cross-Industry Growth

India's Oil and Gas Industry Size & Growth Trends

Market Size and Growth Forecast

The Indian oil and gas market is poised for significant growth in the coming years. Estimated at 38.12 billion cubic meters in 2024, the market is expected to expand to 49.12 billion cubic meters by 2029, reflecting a compound annual growth rate (CAGR) of 5.20%. This growth trajectory indicates a strong recovery from the downturn caused by the COVID-19 pandemic, which had severely impacted demand due to regional lockdowns and economic slowdowns. As the market has rebounded to pre-pandemic levels, the focus is now on sustaining this growth through strategic investments and expansions.

Key Drivers of Market Expansion

Several factors are driving the growth of the Indian oil and gas market. A key driver is the increasing capacity of natural gas pipelines, which enhances the distribution network across the country, making energy resources more accessible. Additionally, the rising demand for petroleum products, spurred by a growing population and improving economic conditions, is boosting market expansion. The oil and gas sector remains a cornerstone of India's energy security and economic development, underscoring its importance as a primary energy source despite global shifts towards renewable energy.

Downstream Sector Growth and Investment

India's energy demand is projected to increase by 50% over the next two decades, driven by population growth and rising living standards. Despite the increasing global emphasis on renewable energy, petroleum fuels are anticipated to continue playing a major role in meeting energy needs. The expansion of refinery capacities, highlights the ongoing investments aimed at enhancing India's refining capabilities to meet the growing demand for refined products like motor gasoline, diesel, and LPG.

(Source:<https://www.mordorintelligence.com/industry-reports/india-oil-and-gas-market>)

India's Waste Management Market Overview

The India Waste Management Market is set to grow significantly, with its size projected to increase from USD 12.90 billion in 2024 to USD 17.30 billion by 2029, at a compound annual growth rate (CAGR) of 6.10%. This growth is driven by rapid urbanization, increased domestic consumption, and industrial activity, leading to an escalation in waste production. By 2030, India's annual waste production is expected to reach 162 million tons, a significant rise from the current rate of 62 million tons.

Factors Driving Market Growth

The rising population density and industrial expansion have led to a surge in both hazardous and non-hazardous waste. This necessitates effective waste management solutions. Despite the growth in waste production, the concept of a circular economy, which promotes recycling and waste minimization, is still emerging in India. The market has vast potential, with only 30% of the 75% recyclable waste currently being processed. However, inadequate policies and inefficient infrastructure present significant challenges to achieving effective waste management.

Government and Private Sector Collaboration

In response to the growing waste crisis, the Indian government is increasingly looking towards public-private partnerships. Municipal bodies, responsible for waste management, have been encouraged to collaborate with private companies to establish sustainable systems. This approach aims to leverage private sector innovation and efficiency to improve waste management practices across the country.

Innovations and Start-ups in Waste Management

India has seen a rise in start-ups focused on innovative waste management solutions. These companies are developing new methods to convert waste into valuable resources, addressing the dual need for environmental sustainability and economic viability. However, tackling the challenges in this sector requires extensive knowledge and robust infrastructure.

Trends in Waste Generation

Urbanization and economic growth have resulted in a substantial increase in waste generation, making India one of the top 10 countries globally in terms of municipal solid waste (MSW) production. Reports indicate that India currently generates over 62 million tons of waste annually, but only 43 million tons are collected, and 12 million tons are treated before disposal. The remaining waste is often dumped in landfills, posing environmental and health risks. By 2030, waste generation is expected to reach 165 million tons, with hazardous, plastic, electronic, and biomedical waste also projected to rise significantly.

Company Overview

Established in 2018, ResGen Limited, is an innovative company focused on transforming environmental sustainability into a commercially viable and scalable business model. The company tackles the global challenge of plastic waste by converting it into valuable fuel substitutes through advanced recycling processes.

ResGen's primary product, PlasEco, is a form of Pyrolysis Oil derived from various types of waste plastics, serving as an alternative to traditional furnace oil or diesel. By leveraging patented technology and strategic operations, ResGen aims to create a pollution-free future.

Core Business and Products

Production of Pyrolysis Oil from plastic waste and scrap. This oil, also known as bio-crude or bio-oil, is a synthetic fuel that is being considered as a sustainable substitute for petroleum products. Pyrolysis Oil has a high calorific value of approximately 10,500 GCV, and contains significantly lower sulfur and nitrogen content than diesel, making it less polluting when burned. The oil is suitable for direct combustion in industrial boilers, furnaces, and generators, and can be refined into diesel for use in machinery, trucks, ships, and more.

Additionally, ResGen is at the forefront of research to produce virgin polymers and petrochemicals from Pyrolysis Oil, aiming to establish a fully circular plastics recycling ecosystem in collaboration with industry giants in India and abroad.

By-Products:

The pyrolysis process also yields valuable by-products, including Carbon and Gas:

- **Carbon:** Used as a substitute for coal, carbon produced in the pyrolysis process is combusted in industries such as cement and paper. It has commercial value and complies with environmental regulations.
- **Gas:** A non-condensable by-product with properties similar to LPG, this gas is used to power gas generators for electricity production and as a fuel for burners within the plant. This self-sufficient use of gas ensures minimal waste and a lower environmental footprint.

These by-products allow ResGen to maximize resource efficiency and contribute to a cleaner environment by recycling plastic waste that would otherwise contribute to pollution.

Manufacturing Capabilities and Strategic Location

ResGen operates a Chemical Recycling Plant in Vikramgad, Maharashtra, strategically positioned near key industrial zones such as Mumbai, Thane, Kalyan, and Dombivli. This location provides easy access to raw materials and facilitates efficient distribution of finished products.

Discussion on Financial Performance with respect to operational performance:**(Rs. in Lakhs)**

Particulars	FY 22	FY 23	FY 24
Total Income	480.81	2,358.83	4,557.44
EBITDA	201.20	1030.57	1532.61
Net Profit	75.77	416.90	656.88

Strategic Growth and Expansion Plans

ResGen is focused on expanding its market presence and increasing production capacity. The company aims to enhance its sales volume through:

- **Geographical Expansion:** Extending its reach beyond Maharashtra to cater to other states and exploring international markets.
- **Product Diversification:** Developing new products and refining existing ones to meet evolving market needs.
- **Strategic Partnerships:** Collaborating with leading petrochemical and polymer companies to advance circular economy initiatives.

Additionally, plans to leverage its strong supplier relationships and cost management strategies to achieve economies of scale and optimize its supply chain.

Innovation and Patented Technology

In 2021, ResGen was granted an Indian patent for its unique manufacturing process, which employs a patented catalytic process to improve the efficiency, safety, and scalability of pyrolysis.

Commitment to Quality and Sustainability

ResGen prioritizes quality assurance and customer satisfaction by adhering to stringent quality control measures across all stages of production. The company's commitment to high standards has fostered strong customer loyalty and repeat business. Furthermore, ResGen's operations contribute significantly to environmental sustainability by reducing plastic waste, lowering the reliance on imported fuels, and supporting initiatives like India's Swachh Bharat Abhiyan.

Risk and Concerns

- **Environmental Regulations:** Changes in environmental laws or stricter enforcement could increase operational costs and require significant investments in new technology.
- **Permitting and Licensing:** Delays or difficulties in obtaining or renewing permits could disrupt operations or expansion plans.
- **Demand Uncertainty:** The market demand for Pyrolysis Oil and other alternative fuels depends on market conditions and regulatory support. Any decline in demand could affect sales and revenues.
- **Reliance on Patented Technology:** Dependence on a single patented technology poses a risk if the technology becomes outdated or is surpassed by a more efficient process.
- **Increasing Competition:** The alternative fuel and recycling markets are becoming more competitive. New entrants or advancements by competitors could erode ResGen's market share.
- **Environmental and Safety Hazards:** Handling hazardous materials involves risks of spills, accidents, and health hazards.

SECRETARIAL AUDIT REPORT**For the Financial Year ended 31st March, 2024**

(Pursuant to section 204(1) of the Companies Act, 2013 and the Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014)

To,
The Members of
ResGen Limited

We have conducted the secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **ResGen Limited** (CIN: L37200MH2018PLC315052) (hereinafter called "The Company"). We have conducted Secretarial Audit in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial Audit, we hereby report that in our opinion, the Company has, during the Audit period covering the Financial Year ended on 31st March, 2024, complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extend, in the manner and subject to the reporting made hereinafter:

INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

TO THE MEMBERS OF

RESGEN LIMITED

(Formerly known as ECOJANITORS LIMITED)

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying Financial Statements of RESGEN LIMITED (formerly known as ECOJANITORS LIMITED) ('the Company'), which comprise the Balance Sheet as at 31st March, 2024, the Statement of Profit and Loss and the statement of Cash Flows for the year then ended and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the company as at 31st March, 2024, the profit and total income, and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the financial statement in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of Standalone Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

OTHER INFORMATION

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report. Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon. In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the Company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITY

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Financial Statements. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the company's preparation of the Standalone Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Financial Statements.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by sub-section 3 of Section 143 of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with relevant rule issued thereunder.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in "ANNEXURE - A";
 - (g) with respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- (h) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us: -
- i. The Company did not have any pending litigations in its Standalone Financial Statements.
 - ii. The Company did not have any long term contract including derivative contract which may lead to any foreseeable losses.
 - iii. There were no amounts which are required to be transferred to the Investor Education and Protection Fund by the Company during the period ended 31st March, 2024.
 - iv. The Company has not declared or paid any dividend during the year.
 - v.
 - a. The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b. The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - c. Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023. Based on our examination which included test checks, the company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE – A**REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)**

We have audited the internal financial controls over financial reporting of RESGEN LIMITED (Formerly known as ECOJANITORS LIMITED) (“the Company”) as of 31st March, 2024 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS’ RESPONSIBILITY

Our responsibility is to express an opinion on the company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company’s internal financial controls with reference to Financial Statements.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the Standalone Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to errors or frauds may occur and not

be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2024, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

CORPORATE INFORMATION

RESGEN LIMITED is a Public Company domiciled in India originally incorporated as M/s Ecojanitors Private Limited and consequently the name of the company has been changed to M/s ECOJANITORS LIMITED vide certificate of incorporation consequent upon conversion to Public Limited Company dated 1st July, 2022 issued by Registrar of Companies, Mumbai and subsequently name changed to RESGEN LIMITED vide certificate of incorporation dated 27th September, 2022 issued by Registrar of Companies, Mumbai, being Corporate Identification Number L37200MH2018PLC315052. The company is engaged in manufacturing and selling of pyrolysis oil and carbon (substitute for coal) from plastic waste.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES**1.1 Basis of preparation of financial statements**

- (a) The financial statements are prepared in accordance with Generally Accepted Accounting Principles (Indian GAAP) under the historical cost convention on accrual basis and on principles of going concern. The accounting policies are consistently applied by the Company.
- (b) The financial statements are prepared to comply in all material respects with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and provisions of Companies Act, 2013.
- (c) The preparation of the financial statements requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between the actual results and estimates are recognized in the period in which the results are known / materialize.

1.2 Revenue Recognition

- (a) The company generally follows the mercantile system of accounting and recognizes Income & Expenditure on accrual basis.
- (b) Sales are recognized at the time of passage of the title that generally coincides with their delivery. Sales are net of GST and Trade discounts.
- (c) Machine and labour charges are recognized as per the job invoices raised during the year.
- (d) Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

1.3 Property, Plant & Equipment and Intangible Assets & Depreciation

- (a) Fixed Assets are stated at Cost less accumulated depreciation. The Company has capitalized all cost relating to the acquisition and installation of Fixed Assets.
- (b) Depreciation is provided on Fixed Assets on Written down value Method on the basis of Useful Life as prescribed under Part C of Schedule - II of the Companies Act, 2013.
- (c) Cost of the fixed assets not ready for their intended use at the Balance Sheet date together with all related expenses are shown as Capital Work-in-Progress.

1.4 Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and value in use, which is determined by the present value of the estimated future cash flows.

1.5 Investments

Investments classified as long-term investments are stated at cost. Provision is made to recognize any diminution other than temporary in the value of such investments. Current investments are carried at lower of cost and fair value.

1.6 Inventories

Inventories consisting of Raw Materials, W-I-P and Finished Goods are valued at lower of cost and net realizable value unless otherwise stated. Cost of inventories comprises of material cost on FIFO basis and expenses incurred in bringing the inventories to their present location and condition.
